NOW BY FRENCH MINISTER.**

**We Complain Because a Dane Is Appointed to Office He Wants for Countryman.**

**PEKING, Jan. 29.—The settlement of the six power loan has been again set back owing to the objection of the French Minister to the appointment of J. F. Glæsener, a Dane, as co-inspector of the salt gabelle (tax) on the ground that the post ought to have been given to a Frenchman, as Denmark is not participating in the loan.**

**The Chinese Government contends that the French opposition is unreasonable and is due to a desire to increase China's difficulties. Mr. Glæsener's competency, the Government says, cannot be questioned, and it points out that Frenchmen already hold two of the highest posts under the Chinese Government.**
